EDUCATION

Washington University in St. Louis

BS in Mechanical Engineering, minor in Statistics

MS in Mechanical Engineering

GPA: N/A

Expected Graduation: May 2028

Expected Graduation: May 2029

Whitman College, Walla Walla, WA

BA in Physics, minor in Economics

Attended: 2023-2026

Degree Conferral Expected: May 2028

GPA: 3.81/4.0 (*magna cum laude*)

SKILLS

- **Programming & Software:** Python, R, Ruby, LabVIEW, NI MAX, Microsoft Office Suite
- **Laboratory Skills:**
 - o **Physics:** Interferometry (ESPI), Laser Alignment, Optical Setup Optimization, Acoustic Excitation, Circuit Design and Assembly, Oscilloscope Operation
 - o **Chemistry:** Basic Wet Chemistry, Titration Techniques
- **Languages:** Japanese (Native), English (Professional), German (Elementary)
- **Interests:** Mechanical Engineering, Materials Engineering, Financial Analysis, Business Operations

EXPERIENCE

Business Development and Analysis Intern, CADDi Inc., Tokyo, Japan

Summer 2026

- Critically analyzed the bottlenecks in the manufacturing industry, such as the supply chain, miscommunication between different sectors, and the waste of resources and time due to that.
- Created and designed a new business plan including cost & revenue analysis, and presented it to the management members of the company.

Software Engineer Intern, GA Technologies, Tokyo, Japan

Summer 2026

- Worked on coding 3 new projects used in software supporting M&A processes. Debugged codes based on daily feedback and sharpened my sense of what good code is.
- Prototyped cost and customer analysis model using Ruby, R, and Python.

ESPI Lab Research Assistant, Whitman College, Walla Walla, WA

Summer 2025

- Used the concept of wave interference to analyze microscopic vibrations on acoustic instruments.
- Optimized the laboratory ESPI (Electronic Speckle Pattern Interferometry) setup by calculating the optimal frequency and amplitude of the oscillation of a piezo-attached mirror.
- Utilized LabVIEW to process over 1000+ data points and images, modeling theoretical predictions against experimental results. Found resonance frequencies and vibration mode patterns of acoustic instruments, such as violas and pianos.
- Authored a 10-page technical report detailing error analysis and conclusions; presented findings.

Japanese Tutor, Whitman College, Walla Walla, WA

09/2024 – 05/2026

- Tutored 20+ students in practicing speaking Japanese and intuitively understanding complex grammar concepts.
- Engaged in cultural exchange events, volunteering in a sister city high school exchange program.

LEADERSHIP EXPERIENCE

Whitman College Men's Soccer, Whitman College, Walla Walla, WA

09/2023 – 11/2025

- Played in NCAA D3 varsity soccer.
- Spent 20+ hours per week on practice, travel, and games throughout the season, while balancing with the academic course load.
- Won the Northwest Conference and qualified for the NCAA D3 Men's Soccer National Tournament on 2025/26 season.
